## FROM THE CHAPTER DIRECTOR'S CHAIR

Steve & Annabelle Penrose - Chapter Directors

From the very first wobbly launch on a bicycle as a kid with a gentle but firm guiding hand of a parent or sibling, you suddenly find yourself all alone astride this simple mechanical marvel, as the wind flickers on your face and you realize that for a brief moment in time, you're totally in control of what is before you. As the learning curve progresses, your instincts and reactions become sharper. You survive many near misses with disaster and scrapes and scratches and you begin to get the hang of riding around potholes and other obstacles that pop up in your way.

Soon enough, your basic skills become second nature and you long to rid yourself of those pedals. Now you need an engine to move you along. **Some just borrow Dad's car** and learn to drive, leaving two wheels behind forever. Others discover the next phase of an incredible journey and get a motorbike. This is where a very special

love affair begins to materialize and slowly but surely sinks its fangs into your soul. Before you know it and with no thoughts otherwise, you realize you have been bitten by a bug in your life that is virtually impossible to shake off. Your spirit of adventure kicks in and the open road winds out toward the horizon beckoning you to ride the miles. The relationship between man and machine begins to grow into an all-embracing bond and you are hooked.

People from all backgrounds ride motorcycles. They are so much more than just another mode of powered transport. Motorcycles are an art form that attract both young and old. They also provide a focal point for art and design and a means to express individuality for the owners.

But most of all, they are the utmost source of pleasure and enjoyment that can reward your input with a sense of extreme satisfaction from

a smooth and well executed ride or a perfectly carved turn. You must, however never forget they may equally punish any momentary lapses of concentration with both major expense to your wallet and possible irreversible skeletal re-alignment.

Why do we do it? One individual alone cannot answer that. Every rider will give you a different reason why he or she rides. All I know, is that when I am on my Wing the troubles of the world go away for that moment in time and I am in total control of my destiny. Being out there with a group of friends, all with a similar love of riding, is beyond ex-

planation but, if you feel it then you need none. Here I am trying to state my case. If you identify with it, maybe some chord of recognition has been struck in your own mind. What I'm driving at is quite simple really. We all share a love of riding and being with good friends.

So many roads, so little time.....Thanks for riding along.

*Steve & Annabelle*

## STORE NEWS

Joe & Sheree Dudek  
Chapter R Store Managers

Hi Everyone,

Last month we wrote about how our vest holds pins and they tell a story. Well, we thought we should identify which pins we sell here at our Chapter R store.

We carry Road Runner pins, of course, since we are the Chapter R Roadrunners.

Then we have Visit-a-Chapter pins. Which is fun to have from when you visit other chapters. What you do is buy a "Chapter Bar" (usually \$2.00) from the chapter you

are visiting and hook it onto your Visit-a-Chapter pin. Then you and others can watch it grow. Remember when you join GWRRA you join all the chapters and are welcome at any Chapter Gathering.

Next, is the Arizona District Convention/Rally pin. This is similar to the Visit-a-Chapter pin. At every Arizona District Convention you attend, you will receive a rally bar that has the rally location and year on it.

Lastly, we carry the American Flag pin which looks great anywhere!

To keep your pins securely on your vest we have pin-savers.

Get your pins, collect those bars and meet lots of new friends along the way.

Have a great month and we'll see you on a ride!

Come see us at the store.

## RIDER EDUCATION

By Dave and Cheryl Fowler, Chapter Educators

With 100 degree temperatures already here in the valley, we need to think about staying hydrated and cool while we ride. Dehydration and heat stroke are two of the most critical dangers in warm weather riding. There are several ways to avoid these dangers. **If riding in groups, don't be afraid to ask to stop and rest and get that drink of water.**

Soaking your shirt will cool the body as you ride, but does not last long in high temperatures. Cool ties, which you hydrate in water and wrap around your neck, will cool the blood in the carotid artery going to the brain and will reduce the risk of heat stroke but does

nothing for your overheated body.

There are different types of cool vest that are also available. There are the ones that you freeze and then wear, also there are ones that you freeze packs and put into the pockets of the vest. Though they work to keep you cool, they are heavy and bulky and once they thaw out they will no longer work.

There are the vests that are made out of polymers which retain water for long periods of time and when worn under a light or mesh jacket acts as an evaporative cooler for the body. When they dry out, you simply soak them again. While riding in the high country, they will last for quite some time

and before you come back to the valley, you can stop at rest stops to rehydrate and re-soak the vests.

You can also avoid the high temperatures by leaving the valley early and coming home after the sun goes down. Although sometimes this could still mean you are riding in 90 degree temps. I think I would choose the cool vest.

Cool vests can be purchased with or without sleeves or with removable sleeves. With collars or without them, they generally cost between \$30 to \$50, which isn't a bad price to stay cool and avoid heat stroke.

**Don't forget, June 5th is field**

day at the Honeywell northeast parking lot. See you there at 7:00 am!

Stay cool and ride safe.

# NEWS FROM ARIZONA DISTRICT

Bill & Susan Trask, District Directors

June, 2011

## How Does GWRRRA Work?

We were pleased to see that last month's article *'How to Be a Volunteer That Matters'* made it into *Wing World* magazine. I guess people are paying attention to what we say here in Arizona..!

This month we want to talk about the Gold Wing Road Riders Association. Today with over 80,000 members, it is a huge organization; but it started with just seven people in Phoenix back in 1977. The concept of GWRRRA, right from the beginning, was **'Friends for fun, safety and knowledge.'** Whenever we concentrate on that motto, things go well and people enjoy their membership. When we get off target, **things don't always go so well.**

Lately a lot of people have been asking **"What happened to the old, fun GWRRRA?"** Well, it is still there because what makes this organization really tick is the membership. When you start worrying about all the stuff happening around GWRRRA you tend to lose focus on why you joined in the first place. We have seen this negativism destroy chapters in the past; but we have seen a lot more positive ener-

gy that makes our stay with GWRRRA fun and friendly.

So, how does GWRRRA work? Well, start by being a positive person yourself. When you start complaining and throwing around your negative emotions, you are not contributing to your friends or your chapter. It is the happy and fun stuff that makes us all want to be part of an organization. GWRRRA is no different than any volunteer group or charity. We like to be with people who do things similar to ourselves. We may not agree on politics, religion, or family, but we have a desire to ride our bikes and meet friends our age. What makes **GWRRRA different from a 'club'** is that the politics and religion are left on the doorstep - we like to laugh, share stories, and learn about safety. When you stick to these items you will always have a good time.

You can make your stay with GWRRRA even better by taking part in your chapter. Every officer in GWRRRA gets the same pay - \$0.00. What we all have in common is a desire to add to our group by being a volunteer who matters. When you help out your fellow chapter members you are providing a positive contribution to your life and to the people around you. Nothing feels better

than to see your efforts make **someone smile.** You don't have to be a Chapter Director or Educator. When you attend a meeting or sell 50-50 tickets, you are making a positive move.

GWRRRA works because we like each other. Be a friend for fun, **safety and knowledge** and you'll find out that GWRRRA is one of the **best places you'll ever be.** We hope we will see many of you at meetings, rallies, conventions, and maybe just out for a ride someday.

Remember: **"The Next Ride is Always the Best One."**

## ARIZONA PRECISION MOTORCYCLE DRILL TEAM

*International Drill Team World Champions*

PURPOSE and MISSION

The Arizona Precision Motorcycle Drill Team was established in 1985 with the purpose of presenting to the public a positive image of motorcycling and motorcycle safety, and to make friends for fun and enjoyment. The team accomplishes these goals through participation in competition and performances, demonstrating safe motorcycling by example and education, and by being active participants in the motorcycling community. The Team incorporated in 1989 as a non-profit organization.

Group name: 'Gold Wing Sept 4 Cruise'

PS: if you have not done an Alaska cruise, you will be awestruck by the scenery and wildlife; if you have done this before, you know the incredible things you'll see and do. And the cruise itself will have lots of entertainment, food, and fun, fun, fun. Everything you need for a great vacation with friends.

Join us to thank Bud & Dot for their contributions to all our lives.
